

Michigan Department of Education presents

# Educator Evaluations: INTEGRATING Student Growth Data

Space is limited, so register soon.

## what

The second annual conference, *Educator Evaluations: Integrating Student Growth Data* will highlight peer presentations of successful systems and educator evaluation development and implementation efforts.

The conference will feature presentations from districts that have developed educator evaluation systems that contain a strong student growth data component or have developed and/or successfully implemented observation protocols as part of an evaluation system. There will also be presentations from professional organizations that are currently supporting educator evaluations and the integration of student growth data.
